

Quality Policy

The mission of Rethink Medical S.L. is to provide customers—institutions, healthcare professionals and patients—with safe, innovative and effective medical devices that contribute to improving users' quality of life and health.

The management of Rethink Medical S.L. has implemented a Quality Management System in accordance with the applicable requirements of Regulation (EU) 2017/745 on medical devices, incorporating quality management principles aligned with the UNE-EN ISO 13485 standard.

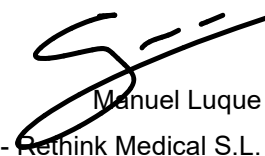

The Quality Management System covers the activities of: 'Design, development, manufacture and distribution of urethral catheters and related non-sterile accessories/components'.

The purpose of the Quality Management System is to maintain the effectiveness of the system and the proper functioning of the organisation. To this end, Rethink Medical works daily to ensure the required level of safety and quality in its products and processes.

To this end, the management of Rethink Medical S.L. undertakes to:

- Comply with applicable legal and regulatory requirements, as well as with customer requirements and the requirements of the implemented Quality Management System.
- Maintain and continuously improve the effectiveness of the Quality Management System, ensuring the necessary resources are provided in a sustainable manner and in proportion to the organisation's activities.
- Effectively control the organisation's activities, guaranteeing the quality and safety of products and promoting customer satisfaction.
- Identify and minimise sources of error, progressively reducing non-conformities and complaints.
- To promote the professional development and continuous training of all members and collaborators of Rethink Medical S.L.

The Management of Rethink Medical S.L. makes this Quality Policy available to all members of the organisation and relevant stakeholders.
